

CAN WE GO FISHING TODAY?

By Lynette Whorley

It was March the 31st (even though my camera date is one day behind) and it just so happened to be my hus-

band's 41st birthday. My youngest son Christian who is 4 got up that morning and said all he wanted to

do was go fishing today!

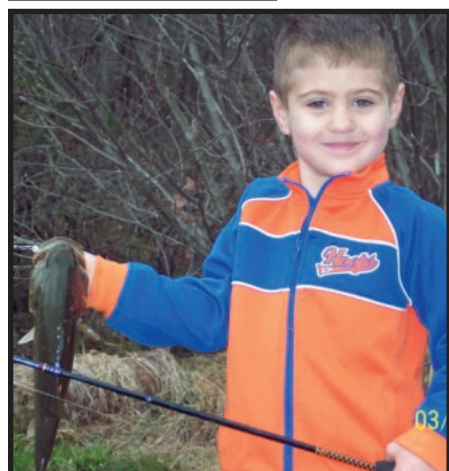

Barry who's always working on the farm says, "Why not, I can take time out of my day for him to try to catch his first fish."

It was a good day for the small mouth bass. Lately, we have noticed that the pond we have has to share its banks with the cattails and wild grass, but it makes a nice home for the smaller perch and bass to camouflage in. All we were hoping for was a bite so Christian could reel in a fish. Indeed, it happened and I was there to capture the most beautiful smile from my little boy's face. It is one thing to go fishing, or reel one in, but for it

to have been his special wish for the day and it was able to happen just makes it so special. To top things off, I took the opportunity to capture him and his Dad with the fish and I thought what an awesome Birthday present to Barry at his Birthday Dinner that night.

I found the perfect picture of them both, had it framed and it now resides on the mantel in our den. When we walk by it, we are reminded of how we are so busy in our lives but sometimes you just have to stop and live a little. Barry said it was the best Birthday present he could have ever received. Thank God for the little ones, they not only keep us young, but they hold us together.
